

StarCloud

Browser-based solution for interactive and collaborative learning

Interact and collaborate - anywhere, anytime.

StarCloud is a browser-based interactive whiteboard solution that can be used with Hitachi's StarBoard products or as a powerful standalone tool that can enhance any interactive whiteboard or display. StarCloud is completely installation free. Accessed via

your preferred web browser, StarCloud allows teachers to easily access their digital resources and collaborate with students and colleagues for individual or group work. StarCloud is available wherever you need it - use it anywhere, any time and with any hardware - the only requirement is an up-to-date web browser.

"Cloud" based

The content you create is always available whenever and wherever you need it. Whether preparing lessons from home or working in the classroom, your files and resources are always online and easy to access. And because StarCloud is accessed through your web browser, there is no software to install and no need to worry about updates.

Hardware independent

No need to worry which whiteboard or other interactive devices are installed in the classroom. StarCloud works on all types of interactive whiteboards, tablet PCs, interactive projectors, and touch-screen displays.

Easy whiteboard sharing

Students can use their own computers or tablet devices to access files and activities created by their teachers without any need for specific software installation. Teachers can also share resources with colleagues, making collaborative work easier than ever before.

Platform independent

Use StarCloud from your PC or mobile device. Integrate videos and internet pages with your other lesson resources. Create digital documents and share with others regardless of whether they work from a Windows PC, Mac or Linux computer.

powered by

StarBoard

StarCloud key features

- Intuitive, easy to use interface
- Write by hand or use the keyboard tool
- All writing and editing tools are always on hand
- Draw free-hand or use the templates provided
- Easy integration of pictures, web sites, video and audio files
- Secure online storage
- Easy document sharing

StarBoard software compatibility

StarCloud can be used independently or as a simple way to extend the reach and effectiveness of lesson materials created using traditional StarBoard software. Teachers already familiar with StarBoard can easily create and save documents in .yar format as well as open and work with their existing .yar files.
